prosper there and soar to the fullest of your potential so your parents, family and everyone (including ourselves) would continue to celebrate your victories over the challenges that life throws your way. We are indeed proud of you.

I am particularly proud of the parents as well being a parent of a child on the spectrum, I know what a day like this can feel like. To see a journey that has been (in most cases quite challenging) come to the point where you can actually see the next level. My heart is filled with joy and I celebrate with you.

To the families and friends celebrating with us - Thank you for the support.

Chairman/Founder

From their Therapists

I remember when I started working with Kamsi, he could not communicate, read or write. At first it was challenging I must say, but at every point he scaled through. Now he communicates effectively (I'm hisgist partner), he now understands a lot of things and can function more independently.

As his therapist, Kamsi has taught me love and patience on a different level. I can say that Kamsi has acquired necessary skills to function in a mainstream school setting. I am proud of him and I wish him all the best!

I want to say thank you to his parents, uncles and siblings for the love, support and effort put in to ensure that he does well. Thank you to the Management of The Zeebah Foundation for always providing us the needed resources to work effectively with our kids.

- Godsfavour Chukwuma

I have been Abdulrahman's therapist for over the past 7 months. Working with him has been an interesting experience. Abdulrahman is a smart and strong-willed boy. We had fun days, wow days and challenging days. I will definitely miss him, I wish him the best as he moves to his new location.

Thank you Mr and Mrs. Sarki for giving us the privilege to work with Abdulrahman, we will surely miss him.

- Saratu Buba
Behavior Technician

Marcelles Mato joined The Zeebah Foundation's pilot Centre at age 4 and I was his assigned Behavior Technician.

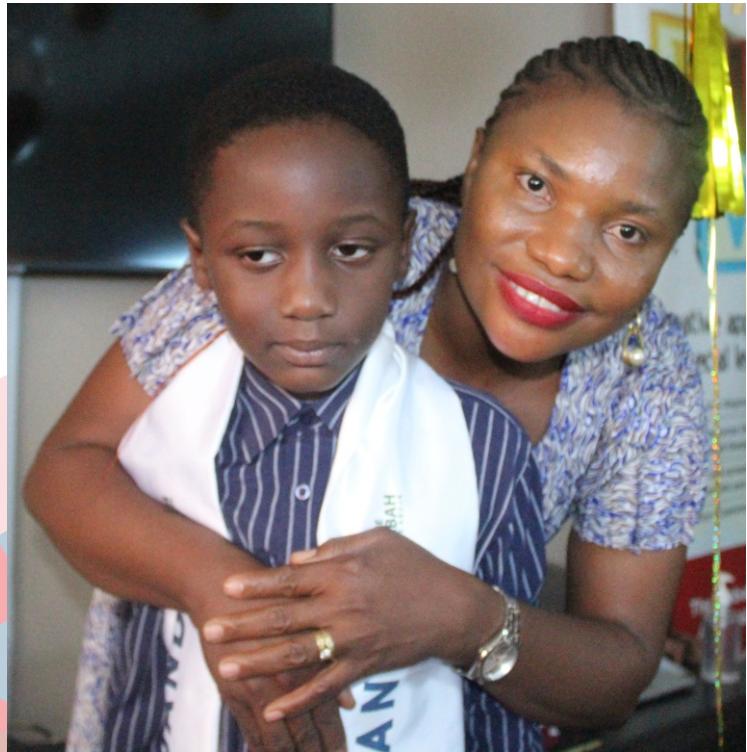

Rather than bore you with details of his Therapy schedule, I can say for sure that Marcelles has made tremendous improvement and he is now ready to re-integrate into mainstream school.

I am proud of him and I wish him the very best.

I want to thank Marcelles parents (Mr. & Mrs. Mato) for being part of the journey. They took to our counsel and complemented our efforts.

Thanks also to the Management of The Zeebah Foundation for constantly providing us with the resources to deliver our assigned duties effectively.

-Lauretta Onokwai
